EXPERIENCE

Stelter Company   2014 *to* 2016
Freelance Front-End Web Developer

Job entails building personal philanthropy microsites to seamlessly match client's existing website. Utilizing the Ingeniux CMS, sites are built then styled using CSS. SalesForce and Google Docs are used to manage workflow and communication between various departments. Remote position.

Partnership Graphics   2011 *to* 2014
Lead Web Developer

Job entailed building/maintaining company websites, as well as building websites and integrated applications for small business clients. Worked closely with the art department, created mockups and built sites from scratch. Managed most aspects of the project from start to finish. Onsite/remote position.

AnnMarie DeVito   2010 *to* PRESENT
Freelance Web Design and Development

Designed and developed small-business and personal web sites, provided exceptional customer service, and met the individual needs of each unique client. Onsite/remote position.

"
"AnnMarie DeVito has been an incredible asset to my company. She has been highly dependable. …What I like most about AnnMarie are her communication skills. She is direct, honest, and a great collaborator. She allows me to take charge of the project while gently guiding me in the direction that is in the best interests of my company. She also takes instruction, guidance, and feedback extraordinarily well. …I highly recommend her!"
